WORK EXPERIENCE

Product Manager - Team Lead December 2025 – September 2026
Paytm

- Led the end-to-end delivery of B2B **FinTech** product development, aligning a 50+ member cross-functional team on strategic **AI-powered solutions**.
- Managed the iPay **FinTech** product launch, ensuring on-time delivery and adherence to evolving **regulatory requirements** in the payments landscape.
- Implemented **AI-powered solutions** to optimize merchant onboarding flows, reducing Turnaround Time (TAT) for critical processes.
- Oversaw four complex **Third-Party API Integrations** for payment systems, enhancing payment controls and system capabilities.
- Developed **Project Charters** and **Product Requirements Documents (PRDs)**, clarifying scope for **FinTech** solutions.
- Coordinated 15+ **User Acceptance Testing (UAT)** cycles, enhancing product quality for **FinTech** offerings under tight schedules.

Product Manager July 2024 – December 2025
IRIS GST - a Sovos Company

- Championed product roadmaps for seven **B2B/B2C SaaS platforms**, securing market share and addressing demands with strategic **AI initiatives**.
- Engineered **AI and API integration** for the IRIS **LMS**, improving user engagement using **SQL** insights to inform product decisions.
- Led IRIS **LMS** version upgrades, integrating advanced **AI/ML workflow** features and leveraging **MLOps CI/CD pipelines** for faster model releases.
- Streamlined product feature delivery processes using advanced **SAFe Agile** (Kanban & Scrum) methodologies, increasing sprint speed and efficiency.
- Coordinated the **ISO 27001:2022** and enterprise software audit, achieving full compliance and robust security under the **DPDP Act, 2023**.
- Cultivated strong **stakeholder alignment** with enterprise clients, ensuring satisfaction and **SLAs** adherence for strategic product initiatives.
- Authored comprehensive **Product Requirements Documents (PRDs)** and UI screens for strategic initiatives, optimizing conversion funnels.

Associate Product Manager July 2019 – May 2022
Cognizant Technology Services

- Developed **Product Requirements Documents (PRDs)**, user stories, and acceptance criteria for core **B2B SaaS data workflows**.
- Prioritized sprint backlog grooming and **Agile ceremonies**, accelerating feature delivery while enforcing rigorous QA standards.
- Collaborated with **UX/UI designers** using **Figma** to wireframe and prototype user flows for complex web applications, improving user experience.
- Established robust **stakeholder alignment** through regular monthly roadmap reviews and meticulous **Jira** tracking, surfacing delivery risks early.
- Guided cross-functional execution for complex database migrations, ensuring data integrity and seamless transitions.
